

We The People Congress, Inc.

Mission Statement

The We the People Congress is a non-profit, membership-based assembly of patriotic Americans dedicated to “institutionalizing” citizen vigilance and governmental accountability. It is legally and institutionally separate from the We The People Foundation for Constitutional Education, but closely connected by a mutuality of purpose and coordinated operations plans.

The Mission of the We The People Congress is fourfold: 1) to institutionalize proper civic education – the history, meaning, effect and significance of every provision of the Declaration of Independence, the Constitution of the United States of America and the State Constitutions; 2) to institutionalize the independent review by the People of the actions of their local, state and federal government officials – *viz a viz* the provisions of their State and Federal Constitutions and laws pursuant thereto; 3) to institutionalize, pursuant to the First Amendment’s Petition Clause, petitioning the government for redress of grievances, particularly violations by government officials of the rule of law, and 4) to institutionalize the People’s Right of enforcement of their Rights in the absence of a meaningful response by government to a proper First Amendment Petition for Redress of a Grievance..

The WTP Congress coordinates closely with the WTP Foundation in carrying out its Mission. The Foundation takes the lead regarding the development of civic educational materials. The Foundation and the Congress share responsibility for identifying abuses of power. The Congress takes the lead in organizing for widespread grassroots civic activism to *correct* those abuses.

The WTP Congress has been established for the purpose of developing in the public forum, out of the ordinary, non-aligned citizenry, a constituency committed to a nationwide, pro-active, non-violent, mass-movement, with the goal of achieving ordered Liberty through citizen vigilance and government accountability. As an organized force of “constitutional activists,” the WTP Congress is organizing State by State, with the near-term objective of a fully-manned “Citizen Vigilance Center” in every State.

We recognize that popular sovereignty as a social and political force is a fundamental cornerstone of our constitutional Republic. The WTP Congress is committed to achieving its goals of restoring Freedom and Constitutional Order through the exercise of popular sovereignty by all possible non-violent means including the exercise of the Right to Petition.

America stands at a crossroad. In our lifetime, we may witness either the demise or resurrection of our Constitution, our Republic and the promise of Liberty. The Congress is uniquely committed to serve “We the People” in helping them organize to effectively repel the forces of tyranny.

General Objectives

To develop a nation-wide network of informed and responsible citizens capable of holding government accountable by compelling government officials – at all levels – to obey our federal and state constitutions, with full reliance on the rights of the people and obligations of the government under the Petition Clause of the First Amendment.

2023 Objectives

Establish an affiliate of the WTPC Congress in each State, including a Board of Directors.

Establish a web site and a bank account for each State affiliate.

Select a site for the Citizen Vigilance Center in each State. Each Citizen Vigilance Center is to look like Thomas Jefferson's home in Virginia. See photo below.

Begin the process of securing an army of supporting members in each State, say 2-3 percent of the State's population over the age of 18.

Designate a State Coordinator, Regional Coordinators and County Coordinators and begin choosing and training the State's Constitution Monitors.
